Personalized Service + Powerful Resources = Custom Solutions

At The Health Consultants Group, we understand that optimizing your benefits program requires more than just shopping for benefits, it requires a holistic approach that is aligned with your overall company strategy, budget, growth plans and more.

Our Approach is Different

At HCG, we function as your strategic partner allowing us to focus on the bigger picture. We bring innovative and complete solutions to your business. As a member of the Acrisure family, our access ranges across geographies, industries, and lines of business enabling us to exceed your unique coverage needs.

Relationships Matter

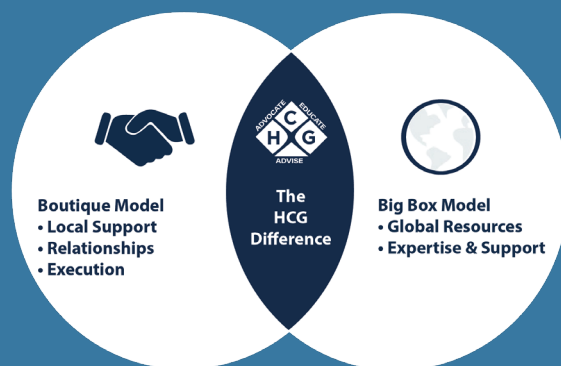

From our Client Service Team to our valued partnership network, we are your partners in providing the benefits and services you need to remain compliant, competitive, and able to recruit and retain top talent.

CLEAR INSURANCE CHOICES

As industry experts, we offer a different approach. We have the most experienced team in the Northeast, and we understand that benefits are an important part of hiring and retaining employees. We also understand that insurance can be confusing, compliance can be difficult to navigate through, and understanding the intricacies of a benefits program can be a daunting task. We work hard to remove that confusion and simplify your election process and support you throughout your benefits year. We use clear and concise language and make sure you are informed throughout the entire process.

"We have been working with HCG for decades now at my company. I personally have been working with them for over 11 years and I would highly recommend. Always there for you and always willing to go the extra mile for our employees when there is an insurance question."

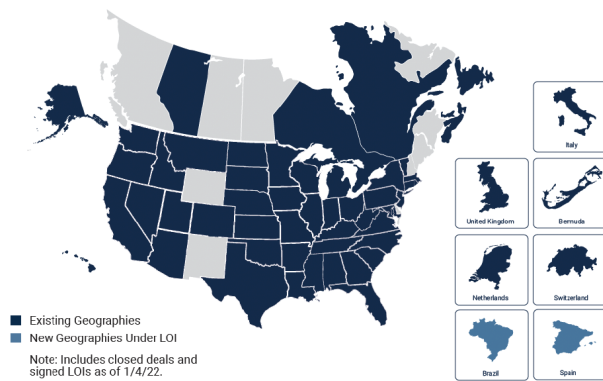

Kaitlyn D.

"Everyone at HCG is incredibly knowledgeable, friendly, and efficient. Doing business with them is a seamless process."

Gwenen R.
